CAREER OBJECTIVE

Results-driven **MERN** Stack Developer with hands-on experience building scalable and user-focused **Full-Stack Web** applications using React.js, Next.js, Node.js, Express.js, and MongoDB. Skilled in responsive design, RESTful API integration, problem-solving, and collaborative teamwork. Passionate about developing clean, efficient, and high-quality digital solutions while continuously growing in agile development environments.

SKILLS

Frontend: HTML5, CSS3, TailwindCSS, JavaScript (ES6+), React.js, Next.js, React Router, Framer Motion, Axios

Backend: Node.js, Express.js, JWT Authentication, CORS, REST APIs

Database & Tools: MongoDB, Firebase Auth, GitHub, VS Code

Deployment: Vercel, Netlify, Firebase, Railway

Soft Skills: Quick Learning Ability, Team Work & Collaboration, Communication Skills

PROJECTS

1. AssetVerse – B2B Asset Management System : [Live Site](#) | [GitHub \(Client\)](#) | [GitHub \(Server\)](#)

A production-ready B2B platform that streamlines company asset management through a centralized, role-based system for HR and employees.

- Built a full-stack MERN application that streamlines organizational asset tracking, assignment, approval, and management through a centralized and user-friendly dashboard system.
- Implemented secure JWT-based authentication with role-based authorization for HR and employees.
- Integrated Stripe payment functionality & request–approval processes to improve operational efficiency.

Tech: React, TailwindCSS, JavaScript, Node.js, Express.js, MongoDB, Stripe, JWT, Framer Motion

2. TravelEase – Vehicle Booking Platform : [Live Site](#) | [GitHub \(Client\)](#) | [GitHub \(Server\)](#)

A full-stack vehicle booking platform that enables users to seamlessly search, compare, and reserve vehicles through a secure, user-friendly interface.

- Engineered a scalable MERN application with secure authentication and role-based access control
- Built dynamic search and booking functionalities, optimizing the workflow and user experience.
- Developed a responsive owner dashboard to manage vehicle listings, availability, & bookings efficiently.

Tech: React, TailwindCSS, Node.js, Express.js, MongoDB, Firebase Auth, Axios, Framer Motion

EDUCATION

BSc in Computer Science & Engineering

(2022–2027)

Port City International University

Certification

- Complete Web Development Bootcamp - Programming Hero

View: [Credential](#)

Language

- Bangla (Native)
- English (Professional Proficiency)
- Hindi (Basic Communication)
